

# NOTICE

## New Gas Code Regulation

This update is intended for all Albertans who may have cause to use the new Gas Code Regulation.

Stakeholders with a special interest in this new regulation include:

- the Safety Codes Council;
- gas safety codes officers;
- accredited municipalities, agencies, and corporations;
- the Alberta Mechanical Officials Society;
- natural gas utilities;
- the Federation of Alberta Gas Co-ops;
- the Propane Gas Association;
- the Alberta Mechanical Contractors Association;
- the Sheet Metal Contractors Association; and
- trade institutes throughout the province.

### Codes in force under the new regulation

The following new gas codes, including Alberta-specific amendments, were adopted under the Gas Code Regulation (AR 111/2010) and come into effect on **September 1, 2010** under the *Safety Codes Act*:

- **CSA-B149.1-10 - Natural Gas and Propane Installation Code** – This code provides the minimum requirements for the installation of natural gas and propane appliances and equipment downstream of a natural gas meter or from a propane distributor's tank.
- **CSA-B149.2-10 – Propane Storage and Handling Code** – This provides the minimum requirements for the storage, handling, transportation and transfer of propane.
- **CSA-B149.5-10 – Installation Code for Propane Fuel Systems and Tanks on Highway Vehicles** – This code applies to the installation of propane fuel system components and tanks on highway vehicles for the provision of motive power.

In addition, the following codes are also in force under this regulation:

- **CSA-B108-99 (R-2004) – NGV Refuelling Stations Installation Code** – This code applies to natural gas fuelling stations that may be used for fleet and public dispensing operations.
- **CSA- B109- 01 – Natural Gas for Vehicles Installation Code** – This code applies to the installation, servicing, and repair of natural gas fuel systems on highway vehicles for the provision of motive power.

### Information on purchasing codes

These gas codes may be purchased directly from CSA International Standard Sale in Edmonton, the Propane Gas Association of Canada in Calgary, or at any other major trade institute. The codes may also be purchased online from the Canadian Standards Association at [www.shopcsa.ca](http://www.shopcsa.ca).

The Gas Code Regulation (AR111/2010) including the Alberta-specific amendments to the code may be purchased from the Alberta Queen's Printer in Edmonton (ph) 780-427-4952, or through Queen's Printer online at [www.gov.ab.ca/qp](http://www.gov.ab.ca/qp).
